COVID-19 Roadmap to Recovery

Ground rules for participants and families

- We will follow the government rules and guidelines to limit spread, being sure to remember that just because restrictions are relaxed in other states, it doesn't mean they have been relaxed in Tasmania.
- We urge vulnerable people to stay home.
- This plan may change based on Public Health.
- It's vital that we continue to practice social distancing (always 1.5 metres) and good hygiene.

Remember: all the people we support are vulnerable but at our high-risk sites, participants are even more so.
