

There is a new illness called coronavirus or COVID19.

Coronavirus is like the flu

People with the virus might cough, have a fever and have trouble breathing

If you think you might have coronavirus, stay at home and call the doctor

The doctor might tell you to stay at home

Most people with coronavirus get better in two weeks

	<p>You need to tell people who spend time with you that you are sick</p>
	<p>They might need to wear safety clothes, so they don't get sick</p>
	<p>The best way to try and stay well is:</p> <ul style="list-style-type: none"> • wash your hands regularly • sneeze into your elbow • stay away from people who are sick • try not to touch your nose, eyes and mouth • keep things clean
	<p>If you have questions about coronavirus, talk to your support worker</p>
